8 meals \$100

Eat Tiddly

(Goldilocks sized meals, not too big, not too small but just right)

16 meals \$140

(box contents change weekly)

OUR PHILOSOPHY

Every week we make a fresh batch of handmade meals using only good ingredients and great cooking!. They will come fresh, not frozen, so you can have something very fresh and ready to just heat and eat for up to 10 days. This means you can only order from the menu list related to the delivery week.

STEP 1

Choose from our delicious, weekly changing menu, then make the call to one of the friendly ladies in the office or order online at www.eat.co.nz

STEP 2

Have your order in by 11am for next day delivery to all New Zealand destinations. If your address is RD then you must pick-up from your local depot.

STEP 3

Keep the meals refrigerated until the use by date: If you dont eat them, freeze them before the use by date – so no waste: Best eaten from fresh

TIP!

Heating from frozen?.. always thaw first for the tastiest results.

DELIVERY INSTRUCTIONS

We deliver all round New Zealand... North Cape to the Bluff, from our door to yours UNLESS you are Rural Delivery!!

We take care to send delicious, affordable food, carefully packaged for its journey from us to you. Courier Post will make your delivery and because the package is perishable no signature is required. If you don't hear their knock they will leave the box. Please check outside at your door if not received by midday.

If you don't have your order by 2pm at the latest, please call **0800 328 333**. One of the lovely ladies in the office will chase it up.

Neither courier post or EAT take any responsibility for your order after its been delivered.

HEATING INSTRUCTION

We use dual ovenable, self venting, cool to touch trays with easy pull film!

MICROWAVE HEATING – for average 850w microwave

Step One – Remove the band and place the tray in the microwave. DO NOT lift the film or puncture the film. For FROZEN meals, defrost first for best results.

Step Two – Microwave on HIGH for 4 minutes or 6-8 minutes if its frozen. The film expands to make a steam tent. It vents to release steam and then de-flates.

Step Three – Remove from the microwave and leave for 2 minutes. Peel back the film – Protect yourself from a steam burn. Pull the film back toward you!

OVEN HEATING INSTRUCTIONS

- Pre heat the oven to 180C
- Remove film
- Heat for approximately 20-25min or until piping hot.
